LSI Language Learning System

We're passionate about language learning. That's why we're constantly reviewing the latest trends and methodology in the field.

Academic staff from every LSI school participate in the research and development of our programmes.

We ensure that the latest theories of language learning are considered and tested throughout our centres.

That's why every one of our schools is a healthy environment for learning. It also means that our students benefit from a massive academic team based throughout 15 schools in 8 different countries. Developed and refined over the last 40 years, the following points are fundamental to our language learning system:

Language Immersion

At LSI we believe that the best way to learn a language is to study in the country where the language is spoken. We want you to immerse yourself in the culture or, as we say, 'live the language'. This is the most efficient and satisfying way to learn the language, and remains at the core of LSI's language learning system.

LSI Levels

Upon arrival at any LSI school, we'll give you a comprehensive language level test so we ensure you go straight into the right level for you. LSI levels have been closely matched against the Common European Framework, TOEFL iBT, TOEIC, IELTS and Cambridge English Language Assessment examinations. To move up to the next LSI level you need to master our specific 'level objectives', which you can demonstrate by test scores and class participation.

At LSI we understand that some students learn faster than others, so our course is tailored for you as the individual. Through systematic testing and teacher appraisal, the school academic director will track your progress and will identify exactly when you have mastered the level objectives and are ready to move up to the next level.

Latest Materials

We're constantly reviewing the latest materials available for language learning. We provide you with what our academic team have identified as being the very best course books currently available for your level. We are also committed to providing the latest technology inside the classroom. We utilise the most cutting edge audio, video and web based resources.

Online Resources/Distance Learning

We understand that the internet is making profound changes to language learning. That's why we're committed to building an online community of language learners.

We have developed and continue to build a series of online resources that mirror the week by week in-class programme at each of our centres worldwide. Although these resources cannot replace the benefits of language immersion or the unique experience in the school, they are a comprehensive supplement to our in-class programme and can be used independently for distance learning. You can follow our programme online before arriving at the school and you can continue studying after leaving the school. For more details on how we're using technology to expand our programme, visit our website.

Cultural Exchange

We are proud of and committed to the cultural exchange that happens within our centres. As you 'learn and live the language' you will gain a greater understanding of the country that you are studying in. And as our students come from all over the world, our centres are not just places to learn languages, but are also places to meet people from other backgrounds and cultures. This is why our students find our programme to be such an enriching experience.

Quality Teachers

We understand that our students' single most identifiable measure of programme quality is the teacher. That's why at LSI we only work with the very best teachers; fully qualified with country specific teaching credentials, experienced and highly motivated.

We have a systematic programme of teacher development and performance evaluation. All of our students are regularly invited to provide feedback so that we can ensure that your teacher meets your expectations.

Our counsellors work with the school's academic team to monitor your progress and ensure that you are on target to reach the academic standards required by your chosen university. Our counsellors will also assist you with the university application process from start to finish, whether you wish to take up a place at one of our partner institutions or enrol at another university of your choice.

Conditional letters of admission

A growing number of colleges and universities in the UK, USA and Canada are offering conditional admission for international students. Conditional admission is perfect for international students who are academically qualified but need to improve their English skills before they begin their degree programmes.

How does conditional admission work?

A student applies to a university or college and, if they meet the academic requirements, they are issued with a conditional letter of admission. This letter states which additional requirements are needed before the student can begin their programme. These additional requirements focus on meeting the English language requirements of the university or college.

Students at LSI schools in the UK, USA and Canada may receive conditional letters of admission for their chosen university or college which ensure they places on degree courses subject to completion of an LSI programme. Some of LSI's partner universities in the USA and Canada accept LSI's own levels as proof of English language ability; other institutions may require either IELTS or TOEFL iBT scores.

LSI can arrange a conditional letter of admission to your chosen university or college for you before you arrive. Once you begin your course at LSI, our academic team prepare you to meet the additional language requirements for your course and take you step by step through the application process.

English for Academic Purposes (EAP)

LSI's English for Academic Purposes (EAP) programme gives you the skills in spoken and written English that you need to succeed at an English-speaking university or college. The programme is flexible and can be tailored to meet your individual needs.

Our EAP programme combines general English with specific modules in academic skills and exam English. The EAP programme includes a focussed grammar review and thematic units allow students to develop their academic reading and writing skills, as well as build their vocabulary. LSI's EAP programme also offers additional online learner-centred practice.

- Duration: 30 x 50 minutes
- 15 students max. per class
- Intermediate to Advanced levels
- Course length: 4-48 weeks
- Age 16+

Programme Requirements

The EAP programme is designed for high school or university graduates who need to meet English language requirements for entering English-speaking university or college programmes. EAP is appropriate for students who have at least a strong intermediate level of English. Students who do not yet have a sufficient level of English can join their chosen school's general English programme until they reach the necessary EAP skill level.

LSI Language Learning System

LSI's EAP programme uses the LSI Language Learning System, a complete package with quality instructors and the latest language learning materials for each level and phase of learning. Each student receives personal supervision from our academic team in conjunction with the school's university counsellor to ensure that his or her academic goals are met. Students can also choose classes in English for Business and exam preparation classes for the Cambridge English Language Assessment, IELTS, TOEFL iBT or TOEIC as part of the EAP programme.

The ISY programme is offered at all LSI language centres (except Siema) but please note that course options may vary between LSI centres with all schools offering the 30 lessons per week programme. We are happy to advise you as to which programme is most suitable for your needs.

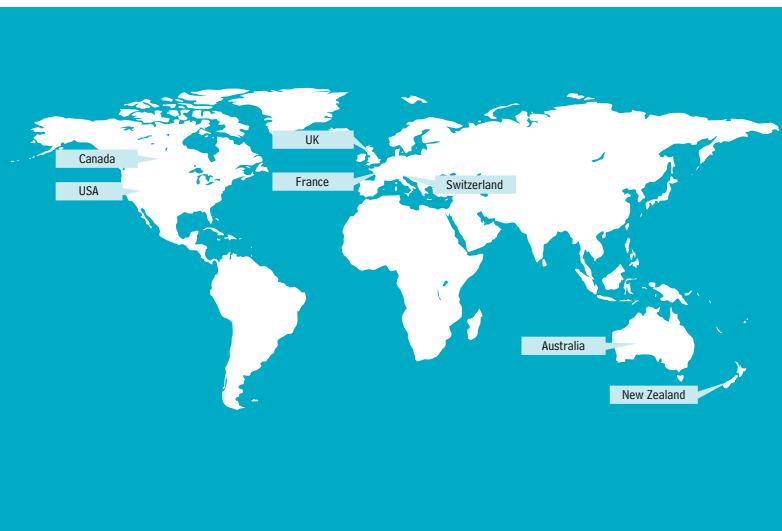

ISY & Your Expectations

As ISY courses are anywhere from 24 to 48 weeks in length we expect our students to achieve excellent results.

The level reached after an ISY course depends on a variety of factors:

- Duration of the course – the longer the course, the better the results
- Number of lessons – often a more intensive course taken over a shorter period yields better results
- The language level of the students – the higher the language level, the more time it may take to advance to the next level

Final results will always depend on you, the student. Active participation in afternoon social activities, making new friends from all over the world, immersing yourself in the local culture, as well as speaking the target language as much as possible will have enormous results on your achievements.

Studying abroad gives you the opportunity not just to study the language, but also to get to know your host country and its people. All LSI language centres offer a choice of accommodation including homestays with our carefully selected host families, college residential accommodation or hotels.

In addition, all our schools offer a fun and varied social programme that allows you to make the most of your time abroad while practising your language skills in a natural environment and making new friends from around the world.

For further information on accommodation options, please view our accommodation brochures available on our website.

New York

As the major business and cultural centre of the United States, New York is rightly proud of its leading role and long tradition in American history. From commerce to politics, ballet to sporting events, the "Big Apple" has it all.

LSI New York

Located on the Manhattan campus of the Metropolitan College of New York (MCNY) in SoHo, near the Financial District, LSI New York is at the very heart of this most cosmopolitan of cities. Facilities include a library, a lounge, and two computer labs with over 40 computers offering free internet access. Being located on the MCNY campus means that LSI students have plenty of opportunities to mix and socialise with both American and international students.

Social Programme

With its 24-hour buzz, excellent restaurants, museums and famous landmarks such as the Statue of Liberty and the Empire State Building, New York's cultural and entertainment possibilities are limitless, and this is reflected in our busy and varied social programme.

I like studying at LSI New York because I can make friends from all over the world and I get a lot of English practice. I think the teachers and methodology are very good.

As the financial and cultural heart of New Zealand, Auckland has much to offer the visitor – from attractive shopping amenities to exhibitions of Maori and Polynesian art. The social programme is second to none, with an unbeaten LSI football team and endless recreational possibilities, from skydiving to skiing, from wine-tasting to walks in the New Zealand bush.

“My 5 months at LSI were really worthwhile. I particularly liked the style of teaching and the topics that we talked about during class. I will never forget my friends and my experience at LSI.”

LSI Courses for Professionals

LSI has over 40 years' experience in professional training and specialised language courses. We offer a wide range of courses for individuals and small groups. We will design a programme to meet your needs, whatever they are. Our language trainers use the latest teaching methods and are skilled at assessing your needs. They will establish with you a detailed course plan to help you achieve your objectives.

One-to-One

- 20, 30, 40, or 50 individual lessons per week
- Beginner to Advanced levels
- 1 lesson: 45 minutes (in the USA and Canada 50 minutes)
- Courses begin: every Monday

Individual tuition is the fastest way to learn a language. Whether you need general or specialised language, each course is designed for your needs and adapted to your rate of progress. It is the perfect option if you have specific targets or limited time. It is particularly convenient for professionals and executives preparing for a trip abroad, or negotiations and presentations in a foreign language. Our reputation for adaptability and flexibility means that your trainers respond to any further requirements you may have.

9 Day Compact Course

- 82 or 92 individual lessons
- 9 consecutive days
- Courses begin: every Saturday

For people with special aims which must be met in a short space of time. Requiring just one week away from the office, this course is ideal for busy professionals and executives who need to prepare for presentations and meetings abroad. The course includes lunch with your teacher, giving you the opportunity to work on your social language - also vital in a business situation.

Mini Group

- 20, 30 or 40 lessons per week
- Participants: maximum 5
- Minimum age: 21 years
- Intermediate to Advanced levels
- Course length: 1-4 weeks
- 1 lesson: 45 minutes (in the USA and Canada 50 minutes)
- Courses begin: every Monday

This course combines general grammar and skills development with an in-depth focus on the language of business. The small, intensive group provides the ideal opportunity to practise negotiation, presentation and meeting skills in a realistic situation.

Intercultural awareness is important in global business and communication. The international mix of our courses and experience of our teachers provides the perfect forum in which to gain this valuable knowledge.

Mini Group Plus One-to-One

Designed to complement the Mini Group, Plus courses are individual lessons flexibly arranged when you need extra help on a specific area or want to increase your rate of progress.

Sample course plans:

- 40 Mini Group lessons + 5 One-to-One lessons per week
- 30 Mini Group lessons + 10 One-to-One lessons per week
- 20 Mini Group lessons + 20 One-to-One lessons per week
- 2 weeks Mini Group (40 lessons per week) + 1 week One-to-One (40 lessons per week)

The goals set with my LSI teacher have been entirely achieved: a tailor-made individual course with emphasis on speaking and pronunciation and useful business vocabulary and idioms.
